LANGLEY
ARCHITECTURE

Hawthorn Close

Our clients came to us with a brief to transform the ground floor of their terraced property and to add a large dormer loft conversion with Juliette balcony to the rear.

We removed load-bearing walls at ground floor level to create an open plan family space and helped our clients to coordinate the design with bespoke carpentry to make the best use of the small footprint.

MLA was instructed to provide planning permission, building control approval and structural engineers calculations. All were completed with great success
